*Superior House Painting Tool™*

## Become a Crew of One

Introducing the Wagner Paint Crew airless piston pump paint sprayer. Paint Crew is a new technology of paint application that is specially designed to spray most architectural coatings including today's thick exterior acrylic paints.

The New Wagner Paint Crew offers the same quality spray pattern as high priced contractor units at an affordable price with design features suited to the serious home decorator. Whether you are painting your fence or the entire home, The Wagner Paint Crew provides simplified operation and clean-up with the technology to give years of trouble free operation.

And with this product around the house you really can become a Paint Crew of One. Paint Fast, Paint Smart and Paint more often. Your house will never have looked so good.

Powerful 2750psi piston pump coupled with a 7.5 metre hose and lightweight metal spray gun to easily tackle large home projects.

# PAINT FAST. PAINT SMART.

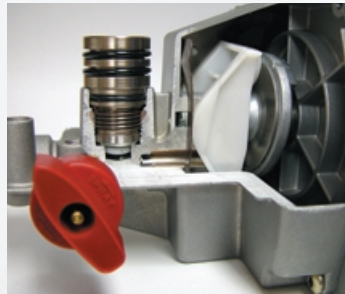

Convenient carrying handle and light-weight design make movement around the project a snap.

With simplified set-up and clean-up, the Paint Crew makes even the smallest projects fast and easy.

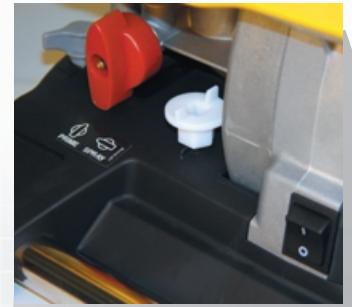

## Engineered to Perform

- On demand piston pump technology maintains pressure as needed.
- 7.5 litre capacity hopper increases spray time and convenience with fast refilling & clean up.
- Professional Grade Metal spray Gun with full size in line filter accepts standard G-thread (7/8") accessories.
- 409 & 515 reversible spray tip sizes provide a superior finish, two spray pattern choices and are easily changeable on the job.
- 7.5 metre high pressure hose for extended reach.
- Backed by the Wagner 2 year guarantee for additional piece of mind.

Precision machined pump components produce the highest quality parts where its needed most.

Centrally located controls simplify operation from start-up to clean-up.

Designed with many conveniences such as an integrated tip holder.

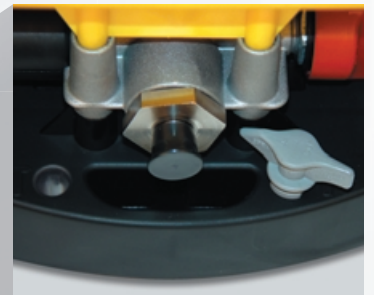

Forged aluminium spray gun body ensures maximum durability.
